On behalf of the Eclipse Festival Committee, we wish to express our appreciation to our financial sponsors, and to every individual, group and business who supported this Festival through partnerships, volunteering, hosting events, and providing essential services.

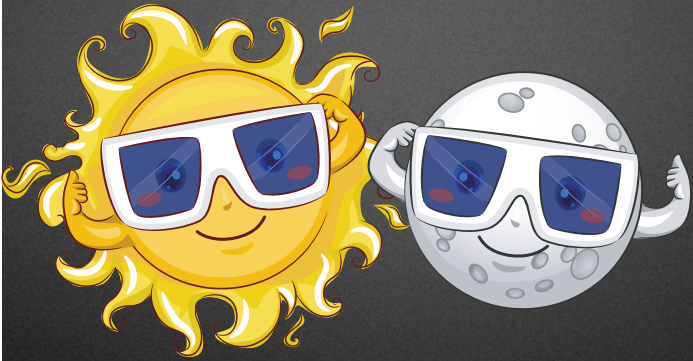

Thank You!

#woodstockeclipse2024

PROTECTIVE GLASSES MUST BE WORN WHEN OBSERVING THE ECLIPSE

It is extremely dangerous to your eyes to look directly at the sun for even a brief moment. The sun’s light can cause severe, permanent damage to your retinas. You may not immediately notice as your retinas have no nerve sensors. A limited amount of glasses will be available for purchase at each viewing location.

The moon will start to eclipse the sun around 3:22 pm (ADT).

Totality (the sun is completely blocked) will occur at 4:33 pm and last for 3 minutes, 20 seconds. **This is the only time it is safe to remove your protective glasses.**

The eclipse event will end at 5:41 pm, for a duration of 2 hours, 18 minutes from beginning to end!

Ronny Michaud & Kyle Ritchie

Alpine John Show

Meduxnekeag Consolidated School
